- 3) The Board finds that this project is in harmony with the general purpose and intent of this Bylaw and the Board's regulations. The Board makes the following findings:

 - (d) That the applicant has agreed to implement all reasonable measures to mitigate the potential adverse impacts of the facilities;
 - (e) That the facility shall comply with the appropriate FCC regulations regarding emissions of electromagnetic radiation and that the required monitoring program is in place and shall be paid for by the applicant.

CONDITIONS:

- 1) Under Section 10F-7., The Applicant shall assume financial surety for the decommissioning of the tower.
